JM

Dear Kamirsyah Wahyu,

It is my great pleasure to inform you that your paper entitled "Partitive Fraction Division: Revealing and Promoting Primary Students' Understanding" has been **ACCEPTED** with **MAJOR REVISION** and will be published in the Journal on Mathematics Education (JME). Your paper will be published for forthcoming issues after suitable revision and fulfil the JME's standard.

### Congratulations!

Authors are encouraged to carefully consider the reviewers' comments and suggestions for improvement of your manuscript, such as:

1. In the introduction, it is not explained what problems arise in class, so this research needs to be done.
2. The main problem is in the findings that do not show RME and DR.
3. Please provide reasons why the tasks are varied and did not follow the cyclical process in DR?
4. In the research methods section, the authors do not explain the research instruments used, how the authors built the instruments, how the validity of the instruments used, and how the data analysis process was carried out.
5. The development of the task for the next class or TE should be based on the analysis and reflection of the previous experiment.
6. The supported task in the learning process provided by researchers does not allow the horizontal and vertical mathematical processes to occur.
7. Why did the group/ level of students are different, from Grade 5 to grade 4? Was there any difference in skill/ability?
8. From the results of the analysis of student work, some of the students' answers do not indicate where students can conclude the formal answers that are obtained, so that, in effect, students are able to solve problems with formal solutions and do not require support drawings prepared by researchers.
9. The RME was not elaborated fully here, like the tenets and or characteristics.
10. The material developed in this research process is not in accordance with the characteristics of the RME.
11. In the process of analyzing data, the researcher does not make a connection between the basic theory developed and the constructed HLT.
12. Please make sure that your discussion section is suitable and supported by a reputable journal.
13. The "result and discussion" section reports must have the most important findings, including results, analyze as appropriate.
14. The paper must refer to several papers in the Journal on Mathematics Education that are suitable for your research, especially about RME and DR.
15. Please add more suitable references for at least 30 references from the reputable international journal, not be older than 10 years, with their DOI.
16. The manuscript should also have been carefully revised and similarity check no more than 20% (Recapitulation the contents of the revised article and similarity check result file must be attached as supplementary file in revision submission process).

For more details, please check the reviewers' comment file in your account. Furthermore, the author must make sure all references have DOI and follow this guideline to ensure that your final file is complete and in the correct format (<https://bit.ly/33GvXT3>) for preparing their paper strictly. You can follow the paper that was already published in JME.

To support the cost of wide-open access dissemination of research results, to manage the various costs associated with handling and editing of the submitted manuscripts, and the Journal management and publication in general, the authors or the author's institution is requested to pay the Article Processing Charge (APC).

\* Publication fee : USD 250

\* Layout & Editing fee : USD 25

-----  
\* Total : USD 275

The above publication fee covers the standard twelve (12) pages manuscript. For every additional page, an extra fee of 30 USD per page will be charged. The Publication fee could be paid by bank transfer to:

Bank Account name (please be exact): Dr. Zulkardi, M.Ikom., M.Sc  
Address: BNI, Palembang, Indonesia  
Bank Account No. : 0216647385  
Bank Name: BANK NEGARA INDONESIA - PT (PERSERO)  
City: Palembang  
Country: Indonesia  
Bank SWIFT Code: BNINIDJAPBG

Please submit the final revised paper along with your payment receipt, recapitulation of the contents of the revised article, similarity check result file, and Copyright Transfer Agreement to email: [jme@unsri.ac.id](mailto:jme@unsri.ac.id) or via your JME OJS Account as an Author Version. The revised manuscript should be submitted by 19 April 2020; if you anticipate that you will be unable to meet this deadline, please notify the Editorial Office. Should you have any questions, please do not hesitate to contact us.

For your information, The JME also has been ACCEPTED for inclusion in SCOPUS database since September 8, 2018 (<https://www.scopus.com/sourceid/21100898027?origin=recordpage>).

Thank you very much for your cooperation. I do really appreciate it.

Kind regards,

Prof. Dr. Zulkardi, M.IKomp., M.Sc.  
(SCOPUS ID: 55808334900)  
Universitas Sriwijaya, Palembang
