Ref. No.: 87698

Manuscript title: Islam And Global Ecology: Formulating The Fiqh Al-Bi'ah Based On Naturalist Intelligence (Case Study Of Bungin Island, Sumbawa)

Dear **Mr. Muhammad Harfin Zuhdi**

We really wanna say thank you for the submission of your manuscript. The peer review process of your manuscript has now been completed and we have reached a decision regarding your submission.

At present, your manuscript requires minor revisions to address the concerns of the reviewers. The revised manuscript should be submitted by 15-April-23; if you anticipate that you will be unable to meet this deadline, please notify the Editorial Office.

These are comments review of the Manuscript title: Islam and Global Ecology

through the Islam and Ecology:Formulating The Fiqh Al-Bi'ah Based on Natularist Intelegence: The scope of Theme: The scope of the theme is quite specific, indicated by a straightforward and informative title that reflect the content of the article. I think this research is very good for publishing in our journal because the theme about Islam and Ecology is really rarely to be discussed. Fiqh al-bi'ah has not been discussed by many people and this is interested to discuss in the journal. Keywords should be enough, you don't need to be revised.

journal because the theme about Islam and Ecology is really rarely to be discussed. Fiqh al-bi'ah has not been discussed by many people and this is interested to discuss in the journal. Keywords should be enough, you don't need to be revised.

Theme novelty: The theme of Formulating The Fiqh Al-Bi'ah Based on Natularist Intelegence (study case at Bungin Sumbawa) is new study that interested to be discuss. Especially the place for research at Sumbawa Island, especuially in the introduction of this manuscript. But you must elaborate more spesificly about Bungin Island and about Sumbawa region generally. Why you take the place and how about in the other places in the other regions? You must write what is the abbreviation of MUI and the others. What is position of MUI at Bungin island. The fatwa of MUI, how it can influence the people at bungin island and other island in Indonesia.

The conclusion: It should answer the objectives of this research, not only resume or the repetition of the results and discussions
References: The reference sources used are adequate. Primary references related to the topic are quite dominant with degrees the up-to-date (research results of the last 5 years) is quite moderate. Search this article for additional reference.

See detailed comments in uploaded file! Orthography needs attention.

We look forward to receiving the revised manuscript.

Yours sincerely. Mr. Suresh.
