Xiaodong Zhang via Online-Journals.org <noreply@journals.publicknowledgeproject.org> to me, Wahyudin, Elah, Tatang

Sun, Jun 26, 2022, 6:30 PM

Habibi Ratu Perwira Negara, Wahyudin Wahyudin, Elah Nurlaelah, Tatang Herman:

We have reached a decision regarding your submission to International Journal of Emerging Technologies in Learning (IJET), "Improving students' mathematical reasoning abilities through social cognitive learning using GeoGebra".

Our decision is. Revisions Required

Reviewer A:

The paper presents methods for improving students' mathematical thinking skills through the use of GeoGebra as assisted social cognitive learning. This is an approach that has been used in critical periods of training, such as training during the Covid pandemic, and to be particularly useful for trainees. The authors have described the methods used in the research, have reviewed the scientific literature on the research issues, have carefully described the product GeoGebra. The study was conducted on 70 students, who were divided into 2 groups: experimental and control. The study conducted is described in detail. The obtained results are well described and the corresponding conclusions are made.

Recommendations to the authors:

1. Indicate the source of the formula used.
2. According to the reviewer, part of the material in the Discussions section is relevant to the review made by the authors and can be transferred to this part.
3. The Discussions section is best to include discussions on the results obtained by the authors and the analyzes made.

Xiaodong Zhang via Online-Journals.org <noreply@journals.publicknowledgeproject.org> to me, Wahyudin, Elah, Tatang

Thu, Jun 30, 2022, 11:28 AM

Dear Habibi Ratu Perwira Negara, Wahyudin Wahyudin, Elah Nurlaelah, Tatang Herman:

Thanks for your revised version. However, there are still minor revisions for you to make.

(1) please double-check the format of the reference (please see the attached file: 2lmpoving+students+mathematical+reasoning.docx). Please spell the journal name out for all the references. Please do not use abbreviations (e.g., Bull. Indones. Econ. Stud.) Instead, you should use Bulletin of Indonesian Economic Studies. Please correct all of them in the current version.

(2) You actually highlighted Covid-19 in the abstract, and introduction, but they the concept disappeared. Please add a section of Implications, and share your insights: For example, how your research might benefit students or educators during Covid-19 (e.g., how to attend to students' emotions). For example, you could refer to Sun, J., & Zhang, X. (2021). Exploring Chinese college students' emotions as they engage in online learning during a pandemic. Asia Pacific Journal of Education, 1-12. It might be a reference for you to cite and expand on the section of Implications.

With the best

Xiaodong

Xiaodong Zhang via Online-Journals.org <noreply@journals.publicknowledgeproject.org> to me, Wahyudin, Elah, Tatang

Sat, Jul 2, 2022, 1:41 PM

Habibi Ratu Perwira Negara, Wahyudin Wahyudin, Elah Nurlaelah, Tatang Herman:

Thanks for the revision.

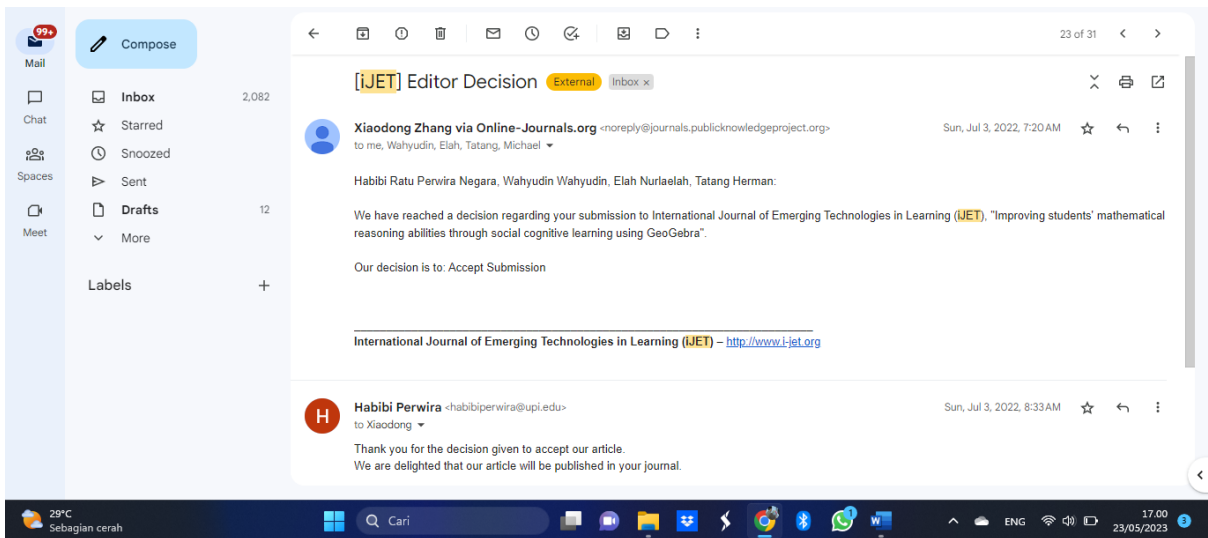

However, minor revisions are still needed. Please carefully check the format of your references.

(1) In the revised version, several research titles are not correctly formatted.

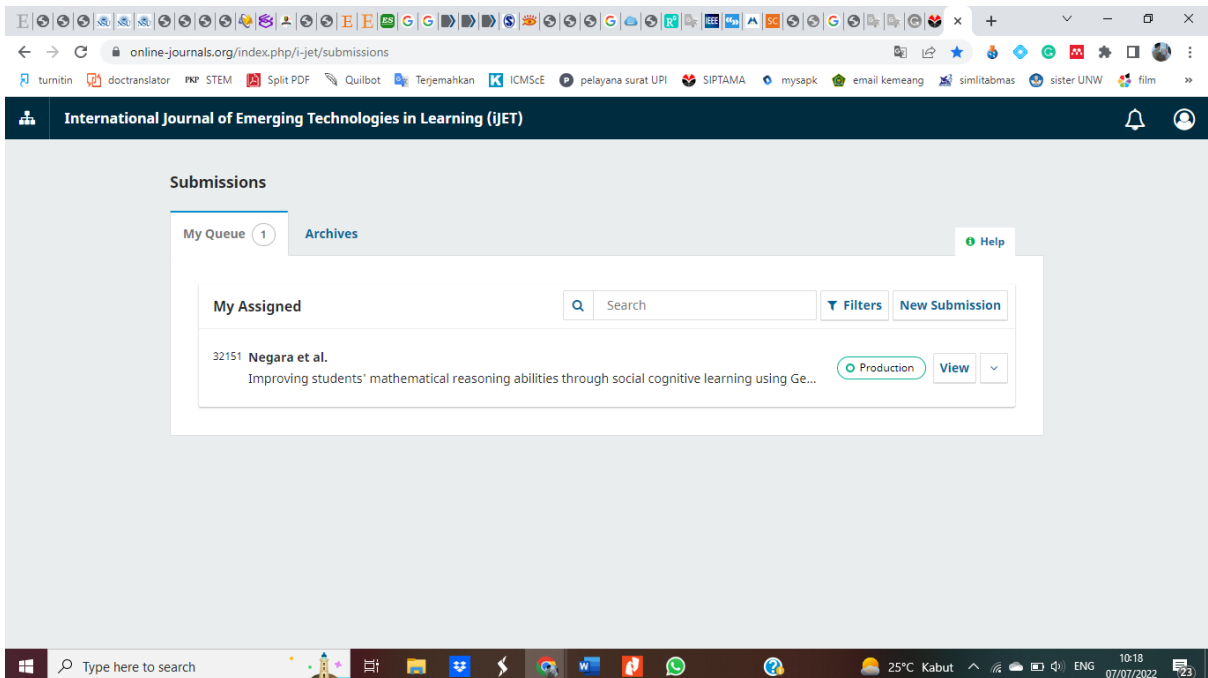

For example, In reference [10] "Improving the Reasoning Ability of Elementary School Student through the Indonesian Realistic," except for the first word, the initial letter of other words should be lower case. Please check others. There are many other misuses, which need to be corrected.

(2) page numbers or others also need to be corrected. For example, in reference [57], D. H. Tong, B. P. Uyen, and N. V. A. Quoc, "Heliyon The Improvement of 10 th students' mathematical communication skills through learning ellipse topics," Heliyon, vol. 7, no. October, p. e08282, 2021. <https://doi.org/10.1016/j.heliyon.2021.e08282>. (1) I do not think the word "Heliyon" is needed before "The improvement...". Page number?

Best regards
